The New York State Energy Research and Development Authority (NYSEDA) announces an extension through October 30, 2009 to Program Opportunity Notice (PON) No. 1060 to seek applications from 1) potential Borrowers for Interest Rate Reductions on Loans from Participating Lenders for certain eligible energy efficiency improvements and renewable technologies; and from 2) potential Participating Lenders who wish to offer their customers access to the Loan Fund. Interest Rate Reductions are available for qualified Existing 1-4 Family Homes, Existing Residential Multifamily Buildings, Residential PV and Wind electric generation projects, and ENERGY STAR[®] Appliances. A Borrower's access to the Loan Fund is contingent upon prior approval through: the Home Performance or Assisted Home Performance with ENERGY STAR[®] Program, the Multifamily Performance Program, the Con Edison Gas Efficiency Performance Program, or the **New York Energy SmartSM** PV or Wind Incentive Programs.

Current Participating Lenders will receive written notification of this extension. No action is required by Participating Lenders to continue in the program at this time.

Prior to October 30, 2009, a new Program Opportunity Notice (PON) No. 1606 will be released. Lenders that wish to continue participating in the Residential Loan Fund will be required to submit an application under that PON.

There are no other changes to PON 1060 at this time.
