**STATE OF NEW YORK  
GEORGE E. PATAKI, GOVERNOR**

**NEW YORK STATE ENERGY RESEARCH AND DEVELOPMENT AUTHORITY  
WILLIAM R. HOWELL, CHAIRMAN  
F. WILLIAM VALENTINO, PRESIDENT**

## NOTICE

This report was prepared by the New York State Energy Research and Development Authority (hereafter NYSERDA) its evaluation assistance contractors: Oak Ridge National Laboratory (ORNL); and GDS Associates, Inc., and its subcontractor, Megdal & Associates, (hereinafter “Contractor”). The opinions expressed in this report do not necessarily reflect those of NYSERDA or the State of New York, and reference to any specific product, service, process, or method does not constitute an implied or expressed recommendation or endorsement of it. Further, NYSERDA, the State of New York, and the Contractor make no warranties or representations, expressed or implied, as to the fitness of particular purpose or merchantability of any product, apparatus, or service, or usefulness, completeness, or accuracy of any processes, methods, or other information contained, described, disclosed, or referred to in this report. NYSERDA, the State of New York, and the Contractor make no representation that the use of any product, apparatus, process, method, or other information will not infringe privately owned rights and will assume no liability for any loss, injury, or damage resulting from, or occurring in connection with, the use of information contained, described, disclosed, or referred to in this report.

## ABSTRACT

This report presents information on the status of, and preliminary findings from, the ongoing evaluation of the **New York Energy \$mart<sup>SM</sup>** public benefits program. This report, together with the continuous tracking of program progress, serves as an integral component to determining the outcomes and ultimate success of the **New York Energy \$mart<sup>SM</sup>** program in meeting New York's public policy goals. This Interim Report, will help NYSERDA to assess progress and modify programs as necessary to improve program performance, and guide development of future program efforts.

## **ACKNOWLEDGMENTS**

Many people were involved in authoring and contributing to this report. From NYSERDA we would like to acknowledge the contributions of Paul DeCotis, Jennifer Ellefsen, Helen Kim, and Mark Coleman, and the many project and program managers at NYSERDA that contributed information for this report. From the Contractor team we would like to acknowledge the contributions of Scott Albert, and Richard Spellman, GDS Associates, Inc.; Lori Megdal, Megdal & Associates; and Sharyn Barata, B&B Resources, Inc. From Oak Ridge National Laboratory, we would like to acknowledge the contributions of John Munro, Joel Eisenberg, and Ron Young. In addition, we would like to recognize Tom Rooney, GDS Associates, Inc.; Tom Giffin and Lina Kohandoust-Hellman, SAIC; for their contributions to the Standard Performance Contract program Case Study (Appendix A).
